

To assure you of prompt and efficient service on all BUX MAGNETIC PRODUCTS we have established the above authorized service stations. All authorized service stations are well established, highly respected organizations fully equipped with modern tools and instruments and efficiently staffed with personnel trained in present day techniques as applied to the servicing of Bux products. Quality workmanship shares equal prominence with speed of service as far as the service stations are concerned and to achieve this end all service stations carry a complete stock of genuine Bux replacement parts which are used in making repairs.
